Wholesale Seed Growers

Los Angeles, Cal. - - U. S. A.

CONTRACT FOR 1915 CROP

.....191.....

Between JOHN BODGER & SONS CO., Los Angeles, California

And

.....

JOHN BODGER & SONS CO. agree to plant sufficient land, ordinarily to produce the amount of seed named hereafter, at prices indicated, and will deliver the seed in good merchantable condition at nearest terminal point in California as soon as practicable after harvest.

JOHN BODGER & SONS CO. will accept contracts only so long as the condition of the crops are favorable enough to justify their accepting same, but in event of short crops will fill pro rata only.

Bags or containers will be charged at cost.

Terms: F. O. B. California terminal, flower and vegetable seeds, 90 days net or 2 per cent discount for cash within 30 days from date of invoice. Beans, sight draft against B/L. All overdue accounts subject to sight draft without further notice.

NON-WARRANTY—We exercise the greatest care in growing and harvesting our Seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and send out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither description, growth nor productiveness of any Seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the Seeds we grow.

If our goods are not accepted on these terms we should be notified at once.

Our Seeds have now been selling on their merits for the past twenty-two years, and by observing the steadily increasing demand we believe they have given general satisfaction; but should any variety not have been as represented, we hope our patrons will acquaint us therewith.

ASTERS

We take pleasure in advising our customers of the advancement in quality of our stock of Asters and have confidence in their giving satisfaction to the most critical trade, but as the results of the improvement to our stocks are a much less quantity of seed, we regret that we have to advance the prices on some varieties to justify the improvements.
